# Tantric Sex: Discover The Art Of Making Love

## Synopsis

Discover the art of making love. Introducing Tantra into your love life is incredibly easy to do; however, it must first be discussed openly and honestly with your mate. True Tantra is rooted in trust and utter devotion to your partner, and if your partner is not entirely on board to bring Tantra practice into your love lives, the experience cannot truly be implemented into the relationship. Speak from your heart about what Tantra is, and why you feel you would like to begin practicing it together, and how it can strengthen the bonds which are shared between the two of you in your relationship. Once you have both honestly opened your hearts about Tantra, and are ready to incorporate it into your love making, you may proceed to do so with transitional ease. Improve your sex life now!

While reading this book I found it very soothing and detailed. It creates a great amorous tone that will put you and your partner in the mood. This book is really useful and I am really satisfied with the great read of helpful, easy to understand tips.

Through the years, my sex life has been very good. I've had great time with different partners in a very responsible way. Some of them were good, some not so good and a few more great. Just a very few were excellent because of the connection we had. In order to have a great connection with my new partner, I started looking for some oriental sex guides and until I stumbled upon this one nothing changed. With this one, I can guarantee a perfect and beautiful bond between two lovers seeking to find more than simply sex. It does not just makes you understand what tantra sex is but how go by different barriers that one may find in the way of loving someone.

For me, it is very important if you have intimate time with your partner. But sometimes our bodies are not cooperating with what our partner is trying to say with their body language. There's a lot of reasons behind it, we maybe feel tired or simply not in the mood. This tantric massage will surely help us in stimulating our partners mood to have an intimate time with us. I believe this can help us make our relationship stronger. It can help us enjoy each others time and can help us relax at the same time. I will definitely do this to my partner, for a new experience. Gotta have lovely night indeed!

Holy cow! When I first read the word Tantric I mistaken it for TANTRUM and I didn't want any part of that type sexual conduct! LOL! On a serious note, who isn't looking for ways to spice up their married life after 18 blissful years of being together? Little did I know that TANTRIC, the new word I learned, would take me down a road to ecstasy! Who knew that sex was designed for so much more than 95% physical pleasure. Tantric sex involves the meshing of your mental, physical, and emotional body with your mate. It doesn't leave one of you leaving the bed feeling left out or

unsatisfied. So pick up the book, read it, and start working toward a level of ecstasy you've never experienced!
