"Gazelle, Baby Steps, and 37 Other Things Dave Ramsey Taught Me" is a fascinating book. It's a unique hybrid of the financial advice of Dave Ramsey and the humorous views of Jon Acuff. It's almost like the concept of having both KFC and Taco Bell inhabit the same building so the consumer can have his choice of fast foods. Do you want a little financial advice, especially about debt? This book has a little Dave Ramsey for you? Do you want a little hip humor? Jon Acuff's got your back. So, what happens when Dave Ramsey's financial advice meets Jon Acuff's humor? Unfortunately, Jon ends up being less funny. This book is not as funny as Acuff's "Stuff Christians Like" book or blog were. In fact, the blog itself has become less humorous in recent months, as Jon has joined Dave Ramsey's team. He seems to be drawing his humor from a different, less funny, place. I felt as if there was a lot of fluff in this book - light, airy (probably pink) stuff - that took up unnecessary space. It seemed too much like a promo or ad for Dave Ramseyism, and too little like a humor that was free to seek out whatever was most funny to Jon Acuff. Too much of it was based on inside information about Dave Ramsey and his advice, and that just isn't as funny as other things. And if I want Dave Ramsey's financial advice, then I'll re-read his "Financial Peace University." Having said all this, the book is still 3 stars funny. Here are some of my favorite moments: I like Acuff's explanation of how he single-handedly started using the word "aloe" to mean

"cool and sexy and fresh," as he illustrated the point that cool is completely fictional.
