## Customer Reviews

When the title states Learn Calligraphy Alphabets I would expect to see at least 1 full illustration of miniscule and majuscule letters. This book sadly didn't tell me anything I hadn't already learned.

I am so confused by the five star reviews... there are no examples of the different styles, no alphabet guides... nothing. It is like a school project, not a published book. I'm as much of a beginner now as I was before the purchase. I honestly feel ripped off.

This book is a joke. There isn't one calligraphic stroke in the entire book. This book in my opinion is worthless to a beginning student. Shame on you.

What an absolute joke. The author talks "about" calligraphy, but there are no illustrations in the book whatsoever! This book is USELESS to beginners, there's no way they'll learn calligraphy from this book! Don't waste your money.

This is more of a pamphlet to get you started, but doesn't give you many specifics. Glad it was Prime.

As someone who used to draw alot and dabbled in calligraphy, this book is a great re-entry into the hobby of calligraphy. From the 'not so obvious' tips to the things to remember, like keeping the nib straight, this book is a great primer on this great hobby, calligraphy is here to stay!!

It sucks. It doesn't show anything. asking for a refund.

I expected photos and actual calligraphy texts.
