Scholarships, Grants & Prizes 2015 (Peterson's Scholarships, Grants & Prizes)

Synopsis

Scholarships, Grants & Prizes provides up-to-date information on millions of privately funded awards available to college students. It contains detailed profiles of awards based on academic fields and career goals, ethnic heritage, talent, employment experience, military service, and other categories, which are available from private sources such as foundations, corporations, and religious and civic organizations. Hundreds of profiles include information on award amounts, eligibility requirements, application deadlines, contact information, and more. Easy-to-use indexes allow you to search for awards by criteria like academic fields/career goals, sponsoring organizations, employment/volunteer experience, military service, nationality or ethnic heritage, corporate or religious affiliation, talent/interest area, and location of study. Quick-reference chart lists award programs providing over \$2,000 in order of dollar amount. Informative articles offer tips on winning a scholarship with a winning essay, guidance on getting in the minority scholarship mix, ways to use social media to help pay for college, information on scholarship management organizations, and strategies for searching for and finding awards

Chocked full of just about any kind of scholarship you can imagine - My husband bought this book to aid in his return to school, but we've already recommended it to several other people we know with kids transitioning from high school to college.

I got this for my daughter to use and so far it has been helpful with finding scholarships I never even heard of.

This is going to help me while I'm still active duty and when I retire from the military in a few months. I looked at the 2013 version and decided to get the 2015 version to be up to date.

I have the kindle version. It's good in that all the information compiled in one place, but the data is a bit outdated sometimes. 4 stars for this one. This is unrelated, but I find that the kindle reader isn't very good for technical books. Though less convenient than the kindle, the Safari Books web reader is much better in terms of formatting the layout. The kindle is better reading novels and such where the layout really doesn't matter. The kindle reader I think deserves 2.5 stars.

A no nonsense guide to applying for scholarships. Millions of dollars unclaimed yearly.

A wealth of information! Well-categorized offerings offer many options. Purchase the updated volume once it is available and you will have more than enough venues to research.

Recommended.
